

Project Title : EduStop - All in One Educational Info And Resources

1. Introduction:

EduStop is a student friendly site which offers all the important and trending news, internships, job offers, projects shared by peers, free books and other resources all in one place.

Benefit: Students need not hustle around in and out of other websites which might be spaced and fake. All students need not login or enter their credentials and no information is collected without their consent and they can post valid content anonymously.

2. Expected list of features:

- Simple UI/UX Design
- Responsive Design
- Privacy as Top Priority
- All Resources and information as free
- Groups for like minded people
- Moderated content only

3. Market Survey:

- Internshala, letsintern, make-intern: Only provides internships and jobs for free and resources are paid. No Groups and User data is needed to access the site.

- LinkedIn : Free and can find like minded groups, people can share resources, job offers, projects etc. for free, Account is required.
